IOWA CLOUDBURST

Sweeps Away Property and Destroys Several Lives.

THE WATERS RISE SO RAPIDLY

That it is Impossible for People to Escap From Their Homes-Great Volumes of Water Swell the Ministippi River, Great Damage to Hailroad Property.

MILWAUKEE, Wis., May 25.-A cloudburst at North McGregor, Iowa, resulted in gret destruction of property and the probable loss of several lives Running through McGregor is a small Running through McGregor is a small stream bearing the historic name of Bloody Run. This emptice into the Mississippi just below the town, but after the cloudburst this morning the run was unable to carry the immense quamtities of water and it overflowed its banks as quickly that people were taken completely by surprise and buildings in the ravine along the stream were inundated before they were aware or could remove much of their property. One body has been found and several persons are reported missing.

their property. One body has been found and several persons are reported missing.

The reports received from agents of the St. Paul company are to the effect that large quantities of driftwood descended on the town down the little stream. The water and debris quickly filled the lowland, carrying away the telegraph office, covering all the company's tracks between the main town and North McGrebor, where the round house is located, the area being about a mile in extent.

DUBUQUE, Iowa, May 25.—A terrific elseric storm accompanied by a deluge of rain swept over this section at midnight, doing immense damage to railroad property. The rainfall was 25 inches and it game as suddenly and in such volume as if a water spout had burst upon an place.

The Mississipp' rose one and three-

and in such volume as if a water spout had barst upon an place.

The Mississipp' rose one and three-tenths feet in the past eight hours and is still rising rapidly.

The greatest damage was to rallroad property. Not a train has come into Dubuque from any direction since Sunday afternoon. It is reported that on the Illinois Central between Dubuque and Sioux City, eightsen bridges were washed away, and another at Bellevue is gone. Lost bridges and washouts and wires down are reported all along.

washouts and wires down are reported all along.

At Durango, eight miles west, the flood that swept down the valley struck the station in which were Mrs. Clark, the agent, and her four children, besides Tom Griffin, a brakeman, Joe Griffin, car repairer, and several others. They were all on the lepot platform when the water struck it and swept it away. It is reported that the four children were drowned and Brakeman Griffin missing. Joe Griffin saved himself by grappling felegraph wires and going with the flood until he lodged in a tree. How the others were saved is not stated.

A relief train has been sent to Durango.

The Storm of Chicago.

CHICAGO, May 25.—A storm of unusual severity struck Chicago at 2:15 o'clock this morning. Basements in the down town district were flooded and considerable damage was done.

During the short space of ten minutes from 2:270 :230 o'clock nearly an Inch of water fell.

The storm was accompanied by terrific thunder and lightning.

The sewers were unable to carry away the water as fast as it fell, and the streets became flooded for a time.

The storm came at about the hour when the newspapers were preparing to go to press and the press rooms of nearly all the morning papers were flooded, necessitating the calling of assistance from the fire department. Considerable damage has been done throughout the city by the heavy downfall.

At Indianapolis.

INDIANAPOLIS, Ind., May 25.—Indianapolis suffered from a severe wind and rain storm early this morning. Two fields of rain fell and the streets were flooded. The sewers falled to carry off the water as fast as it fell and this resulted in an overflow to many cellars. The wind blew at the rate of twenty-six miles an hour and many fine trees were destroyed. A few minutes of hall did some damage to the small fruits. Some of the street car lines were tied up temporarily.

Important Decision.

WASHINGTON, May 25.—Chlef Justice Fuller to-day delivered the opinion of the supreme court in the case of the United States vs. J. H. S. Wiberg, captain of the steamer Horsa, and others. The case is the one which was recently advanced by the court at the instance of the attorney general for the purpose of securing a decision of the court as to the construction of our neutrality laws and their effects in preventing fillbustering expeditions against friendly owners. Wiberg was the captain of the Horsa and with his associates is accused of attempting to land arms surreptitiously in Cuba. They were found guilty under the neutrality laws in the United States courts at Philadelphia. To-day's opinion held that the decision of the Pennsylvania court was correct on the point that the expedition was a violation of the neuexpedition was a violation of the neu-trality laws. The judgment of this court was affirmed.

Two Young Ladies Drowned.

FORT SCOTT, Kas., May 25.—Misses George Ricket and Birdle Cassaday, well known young society ladies of Lacaygne, Kansas, while boat-riding on the streets of that place hast evening, were drowned by the overturning of their boat. The town was flooded by the recent rains and water stood from four to six feet deep in the streets leading to the Memphis Depot. Several parties were out boat-riding. A strong current entried a boat containing the mandolin club against the one in which two girls, with four others, were boating, causing it to tip over. A Mc. Watkey saved his boy by throwing him into a tree and a Miss Dyer herself by clinging to the boy's suppended foet. The bedies of Miss Ricket and Miss Cassady have been recovered. Two Young Ladies Drowned.

A New Bleycle.

WASHINGTON. May 25.—A new Swiss becycle which is made the subject of a report to the state department by United State Consul Rigoley, at Geneva, is claimed to possess great advantages over the usual form; among them being safety, perfect comfort, healthy position, greater power over the machine, greater apoet, hill climbing, power and less fatigue. The rider occupies sitting position, the present saddle is replaced by a comfortable scat, and as the rider is in a position much lower than usual, the machine is easy to mount.
